Software QA Analyst

### We need you to:

- Design, implement, improve and maintain automated tests for web / mobile products.
- Collaborate cross-functionally to implement efficient testing strategies.
- Review requirements, specifications and technical design documents to provide timely and meaningful feedback.
- Create detailed, comprehensive and well-structured test plans and test cases.
- Design, develop and execute automation scripts using open source tools.
- Identify, record, document thoroughly and track bugs.
- Perform thorough regression testing when bugs are resolved.
- Develop and apply testing processes for new and existing products to meet client needs.
- Liaise with internal teams (e.g. developers and product managers) to identify system requirements.
- Stay up-to-date with new testing tools and test strategies.
- Assist in identifying and planning automation targets from the current test suites.
- Analyze test results and coverage reports using standardized QA processes.
- Conduct performance and security testing.
- Write and maintain documentation.
- Write efficient and reusable code that respects best practices and software development guidelines.

### Requirements:

- A minimum of 2 years experience in Test Automation Development.
- A minimum of 4 years experience in development or a QA related field.
- Experience with web development life cycle, from requirement gathering to deployment.
- Experience working in Continuous Integration / Continuous Deployment environments with tools such as Travis and Jenkins.
- Experience with continuous integration environment using Git, Maven, and/or Jenkins.
- Knowledgeable and opinionated about test-driven development techniques (BDD, TDD).
- Experience working in an Agile environment.
- Good understanding of relational (MySQL, Postgresql) and NoSQL databases.

### Personal Skills:

- Highly analytical and detail oriented.
- Ability to work in a fast paced technology-driven environment dealing with change and shifting requirements.
- Self-motivated with the ability to consistently and efficiently meet deadlines.
- Team player with solid interpersonal skills.

### What's in it for you:

- Competitive salary and bonuses.
- Health Insurance.
- Monthly company sponsored lunch.
- Beautiful modern open-concept office.
